ARRIVALS.

Miss Annie Duffin John Barry Mr and Mrs A J Blair DEPARTURES. ST GILMER & SALISBURY'S HAMILTON LINE

THE MINES, -Meadow Valley matters have been the engrossing topic of interestall the week. The proposed arrangement spoken of in a previous issue, will almost certainly be adopted. Several men went to work yesterday, more will commence to-morrow and we look to see a largely increased force by Tuesday or Wednesday. The hoisting machinery is in place and works admirably. pumping machinery will be put in place as soon as a sufficient quantity arrives to admit of fitting it together. At the Raymond & Ely there is very little change to report. The u wal am unt of work goes on; considerable chioriding is being done; parties on the 24 and 3d levels re port very fair luch. The Newark mill is maning on several very good contracts. The Alps mill is also running steadily in the mine the prospects contine as faratable as heretofore; the assay of the ore is somewhat higher, quantity extracted the same. We have received no report from the other mines. Parties in last night from Highland report a good prospect in the mines there. Rock is being hauled from Bristol for the new furnace Glover & Co. are erecting there. It will be running by the 10th of October. During the past week \$9.697 in bullion was shipped by Wells, Fargo

MEADOW VALLEY MINE. - Steam was got up in the new hoisting works of the furnishing the machinery—Mr. Taylorbreaks. There is a large quantity of the pamping machinery now on the ground, and more on the way. Considerable material is accumulating, among which we noticed 4,200 feet of wire cable, a portion of which will probably be put on the reel in a day or two. It is thought work will be resumed about Tuesday or Wednesday.

PORTLAND, Oregon, September 9. The wheat exporters are having trouble in securing grain to load vessels arriving under charter, and demurrage bills are in prospect. The farmer generally will not sell for the prices now ruling. There are seven chartered vessels now in port. and not enough of grain can be bought to load one-fourth of them. Exporters will be slow to take up more vessels under the circumstances. The price of wheat is \$1.35 alongside.

other meeting last night to hear complaints against the police department. The evidence against Robey City Jailor, is strong: its all eged, he has been in the habit of outrageously insulting female prisoners and cruelly beating men. Offi-cer Walker is accused of having stolen \$20, and three other officers are charged with clubbing and insulting citizens. Much public indignation is expressed against the police.

Paris, September 9 .- The Figaro publishes a telegram from Nice, under date of yesterday, reporting the mutiny on board of the U. S. frigate Franklin at Leghorn. The dispatch says that the commander of the Franklin, to save the lives of the officers, fired with a mitrail-leuse and a Gatling gun upon the mutineers, nine of whom were killed before order was restored.

IRON IN THE BLOOD, - The "Peruvian Syrup" vitalizes and enriches the blood, tones up the system, builds up the broken down, cures Dyspepsia, Debility, Dropsy, Chills and Fevers, Chronic Diarrbona, Nervous, affections, Boils, Humors, Diabetes, etc. Thousands have been changed by the use of this remedy from weak, sickly, suffering creatures to strong, healthy and happy men and women; and invalids cannot reasonably hesitate to give it a trial. A 32 page pamphlet, containing a history of the Peruvian Syrup, a valuable paper in progress in medical science, a treatise on iron as a medical agent, testimonials from distinguished physicians, clergymen and others, will be sent free to any address. Meadow Valley Mining Company yesterday morning and at 12 o'clock the whistle blew a blast and Geo. Ames stepping on the platform turned the throttle valve. The powerful machinery quickened into life and motion and moved as noiselessly and regularly as a watch spring. There was no perceptible hitchin the gear or binding such as is often seen in new work. The machinery is all built on improved models furnished by Mr. Ames and is fully equal in size and power to anything of the kind on this Coast. We were shown a letter from the President of the San Francisco company in which that gentleman says he expects to have the entire order executed and shipped by October 1st. PALISADE, Nev., Sept. 6, 1876. EDITOR RECORD: I arrived at this place on the Central Pacific Railroad after a tiresome trip from Pioche. Leaving Pioche on Monday, the 4th, we arrived at Prairie's Ranch that afternoon at four o'clock. About ten miles from the ranch the stage was met by a buggy driven by Johnny Green and Pat Ryan, with whom I had the pleasure of riding into Prairie's, a pleasant relief to riding on the stage. Prairie's ranch is one of the finest in the country, and is well stocked with cattle of all kinds, under charge of Johnny Green. A considerable quantity of grain is raised on this ranch. We reached Ward City that evening at ten o'clock, but did not have much time to view the town-what esti-

mate could be formed was hasty-and should judge that Main street was composed of about forty houses, stores, sa-loons and places of business; the saloons being the only places open at the time we arrived. A twenty-stamp mill, brought from Troy District, is being built under the supervision of Captain Dahlgreen. The calculation is to work the ore without the use of pans or quicksilver by a new process. The "Martin White Com-pany" is the only company here now running, and they are just about having litigation in reference to so some of their mining property, as is always the case in new mining camps. J. W. Gash-vieler was at Ward in reference to the above matter' and took passage on our stage for Eureka. Money is scarce at Ward. Lumber and plenty of merchan-dise on the road from Pinche. Quillen dise on the road from Pipche. Quillen is about erecting a store for the transaction of a general merchandise business

in Ward. The future prospects of the town seem to be very fair, but it will be several months before it is really lively. L-ft Ward at 11 o'clock, running through to Robinson at a pretty lively rate, reaching Hamilton at 10 o'clock Tuesday, Arrived at Eureka on Tuesday evening at 8 o'clock. Found the town very lively and filled with Piochers. Had the pleasure of meeting Cassidy and Dennis of the Sentinel, Fred. Hart, formerly connected with the Reveille, and a host of friends who were all anxious to be posted in regard to the prospects of Pioche. Whilst in Eureka we were

taken in charge by Deputy Sheriff Sam Bell and County Recorder F. H. Har-won, who did their best to make our short stay pleasant. Reaching Eureka just on pay-day made the town seem iivelier than it generally is. The trains leave Eureka for the Central Pacific Railroad at 3 p.m., a very inconvenient hour, but it cannot be helped on account of connection having to be be made with the Eastern and Western bound trains. A heavy rain storm, also a slight fall of snow, marred the pleasure the trip from Eureka to Palisade. The storm made a fire on the Eureka & Palisade Railroad necessary. DR. G. R. EASTERN DISPATCHES. CHICAGO, Sept. 8 .- An Inter-Ocean Bismark special says: Dispatches from Crook's command, dated September 5, Headwaters of Heart river, 30 miles from the Little Missouri and one hundred miles from Fort Lincoln, reached here by carrier to-day. After separating from Terry on the 24th of August Crook followed the trail leading south some 200 miles, experiencing much delay on account of heavy and continuous cold rains. Considerable sickness existed and the troops were greatly discouraged. The troops were on short rations and the

horses much broken down. The com-mand was making for the Black Hills

and will await supplies there. In the

meantime sconting in that country and taking care of any hostiles found there. Terry, it is supposed, is still following the northern trail on the north bank of the Yellow Stone.
Northfield, Minn., Sept. 8.—About 400 men are in pursuit of the bank robbers and their capture is considered certain. The impression here seems to be that the robbers are members of the famous Younger and James gangs. It is certain that they first came to this city two weeks ago over the river road and that they have since been seen in different localities, at each place giving differ-ent names and generally a different account of themselves. The Governor of the State offers \$1,500 reward for their capture. Nothing was found on the bodies of the robbers slain here by which they can be identified. A report is re-

ceived that the posse overtook the bank rothers and that a fight ensued in which one of the robbers was wounded but the rest escaped. Worden on board the Frankiin, dated Spezzia, Sept. 8, showing the vessel was at that place instead of at Leghorn. Officials of the Navy Department are inclined to doubt the truthfulness of the telegram in the Paris Figaro.

Baltimors, Md. Sept. 9.—A Hayes and Wheeler meeting at Cross street market house, was broken up last night by roughs; several shots were fired and Wm. Henry wounded. C. Irvingdilly who was addressing the meeting at the moment of the outbreak, was badly beaten about the head and face. Within a few minutes after the first shot, the a few minutes after the first shot, the hall was emptied of the occupants, many present jumping out of the windows on an adjoining shed. The rioters were promptly arrested by the police, several of whom were in the ball and outside. Marshal Gray states that yesterday being election day at the Democratic primaries, he had given orders to the captains of the police to have an extra force of men to attend all political meetings. Last night in obedience to this order, about a dozen men were at Cross street market, within a minute after the second shot was fired. The man firing was in the hands of the police this morning. The rioters were bailed, but were rearrested and are in jail and warrants have been issued for the roughs not captured. The matter has been before the grand jury to-day and the authorities declare themselves determined that the rioters shall not escape due punishment. The roughs

do not exceed ten in number. Charleston, S. C., September 9.—At

San Francisco, Sept. 9 .- It had been given out that to-day would be a legal holiday, and a proclamation to that effeet had been drawn up and only waited the Governor's signature. Meantime it was suggested that in many parts of the State no knowledge of the fact could be received at so late an hour and that business might be seriously affected. It was therefore decided to suppress the procla-mation, consequently the banks, courts, stock boards and other places of business will be open as usual during the morning.
